Dragon craft mod

Dragon Mounts Mod is exactly what it sounds like, it gives you dragon eggs scoring capable of being tamed and cared for. Now you can get some use from the swamp you win from defeating Dragon Ender. You just have to place the egg and right-click it. It's better to place it in the enclosure you want to keep the dragon in. For a long time it will eventually hatch into a baby dragon. It will grow on its own and once it grows it can be tamed using raw fish. So it will track and protect you just like dogs and cats. And you can train them to sit using an object and right-clicking. Your new draconian pet will need a saddle so you can ride it. Then just right-click and you're off. But the neat part about riding the dragon is that you don't always have to fly it. You can walk around like a horse or press the R key and it'll start flying. R's going to make you go up and P is going to make you fall. You can even allow automatic flight/walking by equipping carrots on a stick while riding. This Minecraft Mod allows you to ride colorful glowing dark dragons in Minecraft! The Dragon Craft mod adds more dragons into Minecraft that you can hatch and tame your pet dragon in Minecraft. There are five new pet dragons in this mod which glow in the dark and can be piloted all over your Minecraft world! What are the mobs? There are 5 Dragons: Ice Dragon Ice Dragon Fire Emerald Dragon Gold Dragon Dragon Why is there only one egg? Mod uses commands and locations to identify the races (will explain later) to change the race and use the new command/dragon! My dragon is a baby yes it's normal! All dragons start out as babies and then grow to their normal size. How can I get one on Survivor? Collect the enderdragon egg in And put it somewhere warm. Then just right-click on the egg and wait until its hatched. Recipes to design: Meat on a stick How do I tame/ride a dragon? You feed it with fish until it loves you (like a wolf) you can then saddle it up and use the set controls (in the control options) to fly it. You can also design meat on a stick and use it to control your dragons. What do dragons look like flying? Other Comments: The /dragon command explains the command. Dragons can be made to sit down and not follow its owner when pressed with a bone. Glow Dragons Dark Mod Showcase: How to Install: Download and Install Minecraft Forge. Download the mod. Go to %appdata%. Go to the .minecraft/mods folder. If the Mods folder does not exist, you can create one. Drag and drop the downloaded jar (zip) file into it. Enjoy the mod.
